Sexologists say: Increase in penis size does not increase women's sexual pleasure

लिंग/लंड बड़ा होने से औरतों को ज्यादा आनंद नहीं आता

Ian Kerner is a sex counselor in New York. She says, "For guys who are too big for their partners, oral or vaginal sex can be difficult."

जब पुरुष का लिंग बड़ा होता है तब औरत को योनी में डालने में या मुह में लेनेके तिये मुशकील होता है।

Ian Kerner, a sex counselor in New York, author of "She Comes First".

"When it comes to penis size, being average is really where you want to be,"

"Having a penis that's too big can be a much larger problem – pun unintended – than one that's too small."

"Size really doesn't matter nearly as much as being a good and creative lover,"

Kerner tells WebMD.

"How you use your brains, your hands, your mouth, and everything else – that's what counts in the bedroom."

Women don't fall in love with your penis. Women love and are attracted by your personality. Confident personality is rated very high. Increase in penis size does not increase women's sexual pleasure. Length of your pen is not important to get more marks. How well you write, what you write with your pen is what matters.

Men of all ages occasionally have concerns about the size of their erect penis and whether it is sexually adequate.

Boys waste time, money and energy in trying to increase their penis size. Not only is it true that penis size cannot be increased, but it is NOT necessary.

IMPORTANT FACT

Although a common worry, the size of a man's erection is not related to his ability to please a partner or enjoy sex himself.

The earlier you realize that size is not important for his or her sexual satisfaction the better you will be.

DON'T WASTE MONEY AND TIME IN FOOLISH QUEST TO INCREASE SIZE OF YOUR PENIS.

If you want to be a good lover, who totally satisfies a woman than ask about THE ART OF FUCKING OR SCIENCE OF LOVE MAKING.

You can fully satisfy a woman with whatever god given penis size you have.

Penis size is not related to sexual pleasure

Remember, if size mattered and if (male) urologists had solutions, they'd all have massive penises

Excellence in hand writing depends on the skills of one who is writing and not on the length of your pen.

Excellence of an exquisite beautiful painting depends on the artist's art of painting and not on the size of the paint brush.

How good a public speaker you are depends on your eloquence and not on the length of your tongue.

How powerfully well you do Martial Arts does not depend on the length of your arm.

How proficient a cricket player you are does not depend upon the

length of your bat.

BIGGER PENIS IS NEITHER BETTER NOR MORE SEXY. Get out of the wrong belief that you will do better sex if you have long hard cock.

Bigger penis is myth nurtured by pornography with depiction of abnormally long penis and taste for it.

DID YOU KNOW-

Girls don't swoon over longer penis nor do they get more sexual pleasure or satisfaction.

THINK

- It would be foolish if to excel in cricket Sachin Tendulkar spent his efforts, time, money in increasing his height.
- Emperor Shivaji does not have to increase his height to be a powerful warrior and brave King.

Worry about penis size is damaging.

In fact, continually thinking about penis size can interfere with achieving an erection, and with the giving and receiving of pleasure.

MORE FACTS

There is rarely a relationship between the size of a flaccid penis and its size when erect. A small flaccid penis can show a remarkable change as it erects and a large flaccid penis sometimes changes very little in length or thickness, as it becomes erect.

NORMAL PENIS SIZE IN ADULT INDIAN MALE

Measurements below are provided by Dr. Ashok Koparday's Samadhan India: Center for Therapy, Education, Research in Sex, Marriage and Relationships.

An erect penis is typically between four to five inches long with a diameter between 1.0 and 1.5 inches.

Of course there are variations in this range, which allow for some larger and some smaller penises.

THAT MEANS PENIS SMALLER THAN 4" ARE ALSO CAPABLE OF GIVING AND TAKING SEXUAL SATISFACTION.

PENIS SIZE, SEX AND WOMEN

Virtually every man forgets that it doesn't matter how long or how short your penis is, because the vagina will accommodate itself to any length.

The vagina of a woman who hasn't had a child is only 7.5cm (3 inches) long when she's not sexually excited. The figures for women who have had babies are only slightly different.

Even when aroused, a woman's vagina usually extends only to a length of about 10cm (4 inches).

This means any man's penis will fill her vagina completely, unless you happen to have an erect penile length of less than four inches.

PENIS BEND, CURVE

It is not uncommon for a man's penis to curve a bit when it is erect. The degree of the curve varies from man to man, but it generally causes no discomfort or interference with sexual activity.

STUDY BY MASTER'S & JOHNSON ABOUT PENIS SIZE AND SEXUAL PLEASURE

The famous sex researchers Masters and Johnson [1] have concluded that size of the male penis can have no true physiological effect on female sexual satisfaction. They base this conclusion on their physiological studies that show that the vagina adapts to fit the size of the penis. Because of this vaginal adaptation, they refer to the vagina as a potential space rather than an actual space. Thus, despite the worries of many males about the size of their penis, Masters and Johnson concluded that any size penis will fit and provide adequate sexual stimulation to the female.

Jeetendra asked, "I want to know how to satisfy my woman".

DOCTOR'S REPLY:

This is answered separately in

'**best foreplay**'. While focussing on sexual performance men neglect LOVE. Here I'll touch upon what is often neglected by men.

1. Most women appreciate caring and love.
2. Your TIME. They want to spend time with you.
3. They want you to listen.

1. Love and caring can be expressed by GREETING CARD specially chosen for her.
2. Time: Men are focussed on work. Success in their chosen profession/occupation usually consumes all their time. When at home then too if you attend office phone calls it can get on her nerves. Have HONEY MOON at least once every year. You both are together in a revitalizing atmosphere. She too is away from her daily chores. Going for movie together is another way of spending special time with her.
3. When you are together at home there are lot of things she wants to share with you. It may be about kids, about her work, about neighbours or relatives. It may appear trivial to you or her talk may appear as list of complaints. Don't bother to give solution. Give listening ear.
