[Precum](#)

Pre-ejaculate is watery colorless slightly sticky fluid that oozes out of penis during sexual excitement. Pre-ejaculate is not semen.

People often get scared and immensely worry due to the wrong

belief that semen has discharged before sexual intercourse.

Excess release of precum does not cause any harm.

Precum is not semen

2. Why does precum come

- Nature has designed the discharge of pre-ejaculate to act as **lubricant**.

In both male and female such watery discharge happens when sexually aroused. **Sex means friction**. What a smart way thing? God has designed this lubricating fluid called pre-ejaculate to come out at the beginning of sexual activity.

- Pre ejaculate also acts as **acid neutralizer**. The acidity in urethra due to urine and the acidity of vagina are neutralised by precum.
- Precum has a role in coagulation of semen.

3. Importance of precum

Pre-seminal fluid is lubricant as well as acid neutralizer.

When you wear a condom this pre-ejaculate is not available for lubrication. So all condoms manufactured now come with lubricant in it. This shows how necessary is pre ejaculatory fluid for enjoyable sexual act.

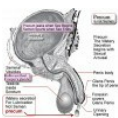

4. When does precum come

This pre-seminal fluid or pre-ejaculate or pre-ejaculatory fluid or Cowper's fluid comes during sexual arousal. This may be when you are sex chatting or doing foreplay.

Precum Pre ejaculate is lubricating fluid secreted by Cowper's gland. Preejaculate is not semen

5. Other names of precum

Other names are

- pre ejaculatory fluid or
- pre-ejaculate or
- pre seminal fluid or
- Cowper's fluid
- Uttejana ka chip chipa pani

6. From where does precum come

Cowper's gland (see in the picture above) secrete watery fluid. Bulbo urethral glands (Cowper's glands), glands of litre release this watery fluid. Preejaculatory fluid is also called precum or [pre ejaculate](#). This is not semen.

7. Can precum cause pregnancy

Some evidences have shown that pre-ejaculate does not contain sperms. (Study by Killick SR, 2011)

A study by Jones, R.K., Fennell, J., Higgins, J.A. and Blanchard, K. (2009) shows that precum does not contain sperms and in fact coitus interruptus or withdrawal method of contraception is as effective as condoms. This is debated. It is preferable that precum should not come in contact in or around vagina to avoid possible risk of pregnancy.

8. Can precum cause HIV STI

Studies have found presence of HIV (the Human Immuno-deficiency Virus that causes AIDS Acquired Immunodeficiency Syndrome).

Hi,

You have a genuine and embarrassing difficulty.

Same sex attraction

How to avoid?

You will not be able to avoid attraction. You will be able to avoid body intimacy though.

Reason for same sex attraction

There is no known reason for same sex attraction.

It is definitely not caused by you.

You can consider yourself as gifted or cursed, because you have attraction towards both genders. This is being 'bisexual'.

It can make you feel awkward, but not cause any harm to your beautiful life.

Namaste ji,

Jab sexy picture dekhte ho to ling khada hota hai to kya samasya hai.

Jab sexy picture dekhte ho to ling may say liquid jaisa nikalta hai usey PRECUM kahte hai aur yeh nikalna swabhawik hai. Jaruri bhi hai.

Nightfall to yuvakon ko jawani ki wajah say shadi kay purv hona swabhavik hai.

Jaise pishab hamesha bante rehta hai aur nikalta hai waise jawani may semen 24 ghante ban na shuru hota hai. Woh hamesha bante rehta hai nikalte rehta hai.

Ya to nightfall kay rup may nikalega, ya hastamaithun karne par ya stree say sambhog karne par semen nikalega.

Semen kay jane say ya precum ki wajah say kabhi bhi koi bhi nuksaan sharir ko nahi hota.

Semen ya chip chipa pani jana nuksaan karak hai is GALAT FAIMI ki wajah say dar utpan hota hai. Jo bewakuf ilaaj karte hai woh pachtate hi hai kyon ki kisi bhi ilaj say semen ka jana band nahi ho sakta.

Ilaj karkay band nahi hua is say chinta aur dar had say jyada badne par man nirash hota hai aur sharir sochte sochte kamjor hone lagta hai.

Is ka ek hi upay hai SAHI JANKARI. Click karna aur padna

Namaste ji,
Do batae hai!

[1]

Aap ko **TB** ho jay to aap koi medicine bataye kahoge ya doctor kay pass say ilaj karwaoge?
EK hi saman hai aap kay do pair kay bich may aur kisi ki bataye dawa khud khakar risk lena chahte ho?
Sex problem ho to sex doctor kay pas ja kar ilaj karwao.

[2]

Dusri baat yeh ki dhat apne aap patla aur gada hote rehta hai. Yeh normal hai. Aako dawa kyon chahiye?
Apne kaam may man lagana. Apni life, career, personality banana. Dhat patla gada kay chakkar may kya padte ho?

Sexual life acchi ahi to shaan say jiyo.

Namaste ji,
Simple si baat hai.

Upar jo precum kay bare may likha hai padna.
Hindi may bhi likha hai.
Precum koi bimari nahi hai.
Fir bhi aap pereshan hona chahte ho to aap ki marji.

Dadi muchey, badan par baal aaney par bhi pareshani hoti ho, ladka **jawan ho raha** hai is baat say bhi pareshani hoti ho to thoda samay bardast karo. **SAHI** jankari kay abhav may aap jaise ladke pareshan ho jate hai.

Chinta ki koi baat nahi.

Sir
Mera nam navaj hai ...mere mama ki sadi ko 16 year ho gya hai but unke abhi tak baby nhi huwa
..doctor ke pass gye to doctor test kraiy or uss test riport me sperm nill h..koi solution bataiye jo unnke baby ho jay....sir kiya unke baby ho sakta hai.
tell me some idea.
Thanks.
t

Urologist say milna hoga.
Sperms testis may ban rahe hai ya nahi?
Spermatozoa ban rahe hai to transport may kanhi block hai kya woh dekhenge.
Yadi sabhi Urologist nay kaha spermatozoa ban nahi rahe hai to ilaj par paise kharch nahi karna.
Do options hai
1. Donor sperm lay sakte hai
2. Adoption Baccha god lay sakte hai
