B. Does diabetes affect sexuality in both men and women?

Yes.

C. Can ED be prevented in people with Diabetes?

In people with diabetes, prediabetes or in those with family history of diabetes **sex problems/erectile dysfunctions can be prevented in small proportion of men.**

However, the onset of erectile dysfunctions can be postponed by 10 to 15 years in most people.

Erectile dysfunctions can be prevented if diabetes itself is prevented.

(Diabetes can be prevented even if a person has family history of diabetes.)

D. Is there cure for ED in people with Diabetes?

Is there treatment for erectile dysfunctions/sex problems resulting due to diabetes?

Yes.

Medical science now has gamut of treatment methods for correcting erectile dysfunction and restoring healthy, joyous sexual life in people with diabetes.

Is there permanent cure for ED in people with Diabetes?

Yes.

New advances in medical science are promising cure.

Sir mujhe 2014 se diabetes hai mera name pintu hai meri age ab 19 year hai meri problem ye hai ki mujhe sex ki icha hoti hai pr mere penis ka size normal state me ek child ke penis ke size ke brabar ki rhti hai penis ke erection wala hard part under chla jata hai jisse ke upper wala skin hi bahar ki aur rhta hai please doctor btaye ki mai kya krun help me please and happy holi i am waiting your answer

Dr. Ashok Koparday Best Sexologist in Mumbai March 20, 2017 at 6:51 PM[Reply](#)

Normal state may child ki jaisa hi sabhi ka penis rehta hai.
Erection aney par 2 inch say bada ho to woh stree ko samadhan dey sakta hai.

Kumar May 7, 2011 at 11:50 PM[Reply](#)

HI Doctor..

My name is Kumar & i have diabetic's form the age of 14 years and currently am running out of 23 and am keeping my health really good and i have some questions can you please clear me.

1. Am doing the handjob 5 times a week will this affect my sexuality in feature
2. Am feeling like doing the sex and shall i go for the sex now..

Thanks
